

Juatha Villa

Development

Project

MASTER PLAN

The project planned to create a harmonious balance between privacy and community interaction. Villas are arranged to maximize ventilation, natural light, and views while ensuring a sense of exclusivity for each resident. Green corridors and pedestrian-friendly pathways connect different zones within the compound, encouraging walkability and a sense of community.

A centralized community hub is established, offering essential public services and recreational facilities.

INSPIRATION

LODGES

A CELEBRATION OF ORGANIC ARCHITECTURE AND SERENE LIVING, THESE LODGES SEAMLESSLY BLEND MODERN COMFORT WITH NATURE. THE USE OF EARTHY TONES, NATURAL MATERIALS, AND FLUID, SCULPTURAL FORMS CREATES A PEACEFUL RETREAT. OPEN-AIR SPACES INVITE RELAXATION, WHILE HANDCRAFTED DETAILS AND MINIMALIST AESTHETICS ENHANCE THE CONNECTION BETWEEN INDOORS AND OUTDOORS. EACH DESIGN EXUDES UNDERSTATED LUXURY, BALANCING AUTHENTICITY WITH ELEGANCE TO OFFER AN UNPARALLELED LIVING EXPERIENCE IN HARMONY WITH THE SURROUNDING LANDSCAPE.

INSPIRATION
MATERIALS

NATURAL MATERIALS TAKE CENTER STAGE, INFUSING SPACES WITH WARMTH, TEXTURE, AND EARTHY ELEGANCE. A PERFECT BLEND OF WOOD, STONE, CLAY, AND ORGANIC FABRICS CREATES A SENSE OF BALANCE AND TRANQUILITY. EACH ELEMENT, CAREFULLY CHOSEN FOR ITS TACTILE AND VISUAL APPEAL, REFLECTS A DEEP CONNECTION TO THE ENVIRONMENT. THESE MATERIAL PALETTES EMBODY MINIMALISM AND SOPHISTICATION, OFFERING A TIMELESS FOUNDATION FOR HARMONIOUS AND IMMERSIVE SPACES.
